6. *Pumpjack Says:*December 10th, 2007 at 3:23 am

Is this the same "Vicky"(now i know her real name) whom i watched on many videos giving her dad lots of blowjobs? And actually liking them very much? Wow i always thought that she would grow up to be a very beautiful teenager but i guess did not, or maybe that pix was just in a bad angle.Oh well on that video i saw nothing violent or anything she actually was smiling and loving it when her dad came into her mouth. That video was very rampant here in the Philippines.

7. *Hnumm... Says:*December 12th, 2007 at 10:05 pm

Pumpjack: Not sure if you're sick, severely backward and sick or just severely, severely backward. Has it ever crossed your lilliputian mind that YOU are a part, a VOLUNTARY participant, of an obscene and, by virtue (ironic pun, that) of the internet, lucrative and widespread system of nightmarish abuse? Oh, and not to mention illegal...

Well, lets just say that watching as you did, ie enjoying it (???), is almost as bad as doing it and if the moderators of this site had any sense...

Whatya think, genius? Or...can you?

yeah she was smiling watch giving blowjobs, and talking like everything was normal. Its wierd to know her name after all this time, and she always looked younger than 10

10. *Rebulon Ruster Says:*

February 17th, 2008 at 7:11 pm

Yup, it's the same "Vicky" as in the videos. Hard to believe from her actions that she was an unwilling victim of child abuse, but I suppose she must get her retribution sometime.

11. *Rebulon Ruster Says:*

February 19th, 2008 at 4:03 pm

If [REDACTED], aka "Vicky" is so innocent, why is there a home video of her at 10 years and her sister Al [REDACTED] (8) cavorting semi-nude in their bac [REDACTED] posing erotically? Both girls appear to be very willing subjects. I suspect there is more to [REDACTED] motive than just exposing her father as a pedophile rapist. If anyone has seen these "Vicky" vi [REDACTED] they would instantly recognize that she was a very willing subject.

12. *lulwut Says:*

February 26th, 2008 at 12:24 am

I do really feel sorry for that guy... If you seen the "vicky" videos, you'll know that most likely [REDACTED] has molested her father and not her father molested her.
The judge should really look throughly into those vids.

Vampire- : Never judge anything before seeing all parts of the story, trust me.. She IS a slut.

Hmmm...- : So you think watching such stuff is a crime as the stupid federals do... just tell me, why if I watch a video of a guy shooting another guy it's not a crime? would I be encouraging or motivating homicide if I did???
Seriously, law should be reconsidering that..

PS. She looked much better when she was younger, She's so ugly now!.
Oh, and I'm not a pedophile I actually don't like kids, they're just EWWW!!!
And I despise pedophiles (The ones who REALLY hurt kids) Those should be killed.

Lets just say I like saying the truth!!

You people are all sick. I've seen this video by accident on limewire, how could anyone even dare to say a 10 year old pre- pubesent CHILD would even be able of comprehending what was happening to her? There was quite a few of these videos circulating as i started doing some research out of my disgust for what i had seen. It shows the man in question obviously grooming her from a young age

1/13/10 9:25 PM

which is what pedophiles do! How could you begin to imagine the trauma this girl has gone through? you should all be ashamed at your ignorance.

14. *zara kaddour* Says:

The TRUTH is you people are a bunch of immature unfeeling heartless animals having a laugh at someones most inner most shame. To grow wise with age and realise your childhood was corrupted and taken away from you by someone you trusted, how anyone could move on from that and lead a normal life would take great courage and here you are making it into a joke, i cant even describe the anger i felt reading these posts, people like you are the reason the world will never change with stupidity and ignorance infecting society like a disease.

March 9th, 2008 at 3:01 am

Well first of all I thank those [REDACTED] hav watched the vicky bids before making judgement about the situation. First of all, vicky ([REDACTED]) did all those acts willingly and happily. Her father explained everything to her what sex is [REDACTED] people do it and started small doing it to her (i.e. stroking, cumming on a separete sheet of cloth) thus not scaring her letting her enjoy it. The only ones that caused her harm was her mother and society, think about it she did all those things of her own will she knew what she was doing her father explained it to her, now her mother comes all of a sudden and tells her its wrong and its illegal, now she doesnt know what to think, shes confused she evidently didnt wanna get herself or her father into trouble so she refused his sexual advances theres no evidence that he got physical and the society stepped in and took her father away, exactly what she didnt want, thus all the harm caused on her is thanx to societies forced laws. Dont get me wrong child abuse is wrong and those that hurt children in anyway should be tortured to death but this was a loving relationship between father and daughter, no abuse whatsoever, well atleast not until society stepped in with its biased and simple minded laws.

20. *dannyhik Says:*

March 12th, 2008 at 1:54 am

I think that is true that she was enjoying the whole time that she was with her father, if she really would not like it she would had talk sooner, but why she only talk when somebody told her that that was wrong I think that she really loved her her father thats why she did all that stuff with him and that was not a rape if u look at the vicky videos, she was very willing, wet horny liking it, and even masturbating herself when her dad was screwing her, smiling happy and a little disappointed when she couldnt swallow it all. thats the true

21. *A Says:*

March 13th, 2008 at 10:06 am

But thats the whole thing then why is it still seen as wrong, she was obviously not molested, but thought it was wrong cause thats what her mom tolde her. Why is what her father did to her still wrong, cause the government says it is?, screw that. Eg. If people see a child porn video and the child enjoys it they still think its wrong, why, cause they think its impossible for a child to be sexually active and that its wrong to even think such a thing is positive thus in the case where a child enjoys sex they think that just the idea of a child having sex is wrong, thats ignorant. Children have every right to do what they want even have sex. As long as the adult or sex partner explains everything to them and taking it slowly, thus treating it more like a game to them in order not to scare them and not to confuse them or complicate things for them. Now society just has to start realising this and stop judging before they know all the facts. Now anyone who disagrees with me please enlighten me how Im wrong, and please give me valid reasons not just cause your a pedo mofo.

The Vicky videos are legen[redacted]. Have only seen small th[redacted] of some of them. The girl is an active and eager participant. Sad [redacted] felt it necessary to betray [redacted]. Revenge and a vengeful mother are probably among the cause. I agree very much with you [redacted] ment. The problem is the legal and criminal persecution, not the loving activities.

23. *A Says:*

April 5th, 2008 at 3:55 pm

Exactly HL, and thats the thing no matter how much we make sense and argue, the government will always be stubborn and narrow minded about this and never even try to debate this situation. Which just just pisses me off cause they think theyre the majority they think they can do what they want. What about the gays they were also prosecuted but theyve attained freedom, I hav nothing against gays they can be who they want to be they have the courage to be themselves, Im just saying Ill never be gay, I love little girls way too much. Heres to hoping society opens their eyes some day.

May 27th, 2008 at 3:48 pm

She was way hotter when she was 10.

The ultimate exoneration for dad would be if she gets into "regular" adult porn now.

The main thing that bothered me about the videos is that he "interviews" her a lot but in most of them there isn't any sound (except for "salty milk"). I always wanted to know what she was saying in the other ones.

37. *AL Says:*

May 30th, 2008 at 3:35 am

You retards do know that the Feds can track you online, right? Not very smart to admit that you are in possession of an illegal material. By giving details about the vids that you would only know if you had seen them, you are making yourself a target.

38. *Marvin Candle Says:*

June 2nd, 2008 at 10:38 am

You guys are sick and should be shot! So what if she enjoyed it at the time?! She was 10, and it was what she grew up with, she thought it was normal. It was child abuse, it was rape, and by her own fucking father! She had her childhood taken from her! I'm gonna make sure authorities sees the comments on this page.

39. *Francisco Boni Says:*

June 11th, 2008 at 5:20 pm

A retard named "A" here is affirming that vicky () did all those acts willingly and happily. You are a waste of matter occupying space. Stop watching porn you fucking retard, because a KID, a child sucking a dick with a smile in her face doesn't actually means that she know what sex is. If a image of a happy child doing sex automatically makes you remember a whore enjoying to receive or giving pleasure, you are a psychopath. You are imagining facts and sensations that exists only inside you fucked up mind. Even when two adult people agree to enjoy eating each others shit, it has the tension of pleasure because in a symbolic way they are accepting each other in a dissonant moral and sensitive way, they are eating each other. Even in this case, everyone know what pleasure is and are PREPARED TO DEAL with pleasure and with the relations. If you have the capacity to interact with children without thinking about pleasure, you can automatically know that CHILDREN are always willingly to play along with the people that they trust and receive food, shelter, security.

A children doesn't know how to deal with pleasure, that's why they can be so traumatized. In the end, fucking psychopaths like you are egoistic lump of matter that are lying to yourself while abusing a child, in a way that it remember some kind of pleasures to yourself, in a way that make you feel fucking powerful.

It's a pity that neuropsychology still doesn't has the clinical and legal ways to arrest unsocial trash like you and put you in a institution for research and treatment. And if treatment doesn't work, it's better to kill people like you immediately.

1/13/10 9:25 PM

Children must be prepared to learn about themselves, the world and about pleasure. And to know about pleasure, doesn't mean use them, abuse them while lying to yourself mentally. A child doesn't know how to deal with pleasure, the lack of it and security. Children can learn and imitate, because they want to be trusted and satisfy the ones who can provide and fix everything for them. They imitate, they don't give pleasure because they have established in their minds that sexual pleasure is good, so like, 'my daddy likes that thing called pleasure, something that I like'. Psychopaths can feel themselves as powerful entities in relation to a simple child that is always willing to be helped, recognized and cared. And they translate that facts into the development of a sexual relation, in terms that the child can actually do something for someone because they identify with the necessities of other. Children usually are LEARNING how to deal with other people, identify their owns needs and feeling in others. Thats why children usually fight a lot until they get sensitive about people feelings. And now, some psychopaths wants to manipulate children to get their own pleasure, stating here that they KNOW WHAT THEY WANT and other people want.

June 13th, 2008 at 5:38 am

The major point of this story is that if the father has broken the law and is successfully prosecuted, innocent until proved guilty, then he will be found guilty of statutory rape of a minor and the manufacture and distribution of child pornography and should be sentenced accordingly, not whether or not the child enjoyed it or whether or not she was hurt which seems to be the arguments of the pedophiles trying to justify the exploitation of children for their own depraved sexual gratification including lulwut who doth seem to protest to loudly about not being a pedophile.

The sad thing is that she has been abused by someone who is a major role model in the formative years of her life who she should be able to trust and who has deprived her of the innocence of childhood she will have to live with the mental trauma of being abused for the rest of her life made worse by the fact that she now knows she has a world wide audience of the lowest form of sick minded and morally absent scum on this planet watching her being abused, however, she seems to be a survivor and I for one wish her a successful life.

As stated on this post by the more normal [REDACTED] is a victim of a manipulative parent a friend of mine who was abused by her stepfather from the [REDACTED] of 8 being a child she thought that this was the norm a part of growing up, why? because her stepfather told her so, why didn't her mother find out? again she was cleverly manipulated by her stepfather. A life ruined by a deviant for his own sexual gratification who is now reflecting on his crime in prison but no prison sentence will undo the long term trauma done to my friend it might appease society but for the thousands who are abused yearly it does not cure the mental scars of abuse so what is the appropriate action to stop the abuse of children who knows.

To finish off my rant anyone who has watched these films or any others involving children being abused and have enjoyed them my advice is to seek professional treatment because you need it.

Personally i've come across the vids she seemed willing to me if she wasen't willing she would have refused to be perfectly honest with u, now i'm [REDACTED] ving sexual activity with kids is Ok but after further study of the videos "Vicky" aka [REDACTED] is a confussed girl thanks to her mom plus if she felt wrong about it she [REDACTED] ld have [REDACTED] g to someone specially in school to like a teacher but never did. so all in all [REDACTED] should not have been charged its just a ex wife seeking revenge against ex husband more [REDACTED] just had it turned into something more brutally misled. but all in all i'm stickly against child porn.

54. *Reason Guy Says:*

September 2nd, 2008 at 1:39 am

Ok [REDACTED] am not a pedo, not attracted to kids. But the pedos here do have a point. If (and its a big if) [REDACTED] dad really did not force anything on her and she truly enjoyed the sex, then one could arg [REDACTED] trauma was due to society not accepting their unconventional relationship. I do believe kids can enjoy sex. I have a friend who was molested at the age of 12 by his incredibly hot 19 yo au pair. It is his fondest childhood memory. Thinking back at myself at that age, I would have felt myself lucky if the same thing happened to me.

1/13/10 9:25 PM

To prove its not the sex act that traumatized her life it is possible to just look at some other cultures. I know of one culture where when young boys are too hyper, their mothers masterbate them to release their excess energy. It works, men (and I'm sure boys) are very relaxed after an orgasm. Because it is normal in that society, no one is traumatized.

In ancient Greece it was common practice for men to have sex with young boys. Pretty much all young boys were fucked anally by uncles, dads and family friends, so it was not considered unusual or something to get upset about, or even taboo. It was a sometimes unpleasant chore much like taking out the garbage.

The trauma in this case comes from a clash of cultures. The girl was raised in a culture whose moral framework and behavioral norms were in direct conflict with those of the culture she was destined to live in as an adult. The father knew she would eventually have to join the other culture and should have known the transition would be traumatic. By raising her in an incompatible family culture he did her a disservice which directly caused her to be traumatized and it is that reason why his behavior is abusive, not the sex itself.

55. AL Says:

September 5th, 2008 at 3:23 am

No, what was traumatic to her was her disgusting pervert of a father raping her when she was 10. She was so messed up she didn't know what was right or wrong. Oh, and that thing about ancient Greeks sodomizing young boys has no bearing on modern society, no matter how much you might wish it were legal in the US. Pervert

The story is actually not what happened. mother found pictures of her and together and freaked out he entier e thing about her ng F Gump was a lie. The reas he freaked out is because was not supposed to tak tures. mom knew about the sex, she was the other perso the videos, you will see talkin ooking to someone off screen, that was her mother.

The feds are only aware of about 5 or 6 movies in reality there were over 60.

LOL hahaha there is no "billion dollar child pornography industry". It's more like a multi-thousand dollar "industry" at best. There's no such thing as non-amateur child pornography, and there are no companies in the world that officially sell it.

hilarious melodrama from your moral high horse.

72. *Fortune Bee Says:*

December 13th, 2008 at 1:28 pm

This is quite the odd case, but I have to agree with the Pedo-defenders here, I took the risk and had a look at a few of the videos and its pretty damn obvious that the girl is enjoying it and giving full consent, for those of you saying she was groomed or pressured into acting that way then you should actually watch the video because that is not whats going on.

I agree that child molestation is wrong, but I don't think this counts, This is completley consensual sex between two people, not some Joseph Fritzl escapade.

Also on a note, the thing thats made me most sick when reading through this is the disgusting attitudes for the posters. "Kill the pedo" "Torture him to Death" "Have him be raped and killed." You people are god damn fucking sick, If you honestly think that brutal torture and murder is a just punishment for anything then your no better than some kiddie fucking rapist.

Scratch that, I'd rather shake hands with a guy who has has sex with a 6 yearold than some blood thirsty psycopath like you.

73. *BadBoy Says:*

December 13th, 2008 at 4:23 pm

There are things about [REDACTED] story that just don't add up.

She says [REDACTED] forced her but everyone who has seen the vids says she was a willing and active particip

Maybe [REDACTED] could edit the tapes to make it look that way but I understand there is a 108min vid of

Page 21 of 48

1/13/10 9:25 PM

Vicky. It would be difficult to edit that in such a fashion, there must have been at least SOME evidence of her being forced.

She says she forgot all about the abuse until she watched Forest Gump but also claims that [REDACTED] had been pestering her for more since she stopped and she always refused. Which would make [REDACTED] difficult, if not impossible, to forget.

She says she stopped having sex with her dad after her mom talked to her about sex abuse. Seems a strange thing to talk to your young daughter about about if you didn't know she was having sex.

Most of all I can't help noticing that [REDACTED] only went public after [REDACTED] did the same thing and became a multi millionaire from selling her story.

Also, all the TV programs and newspapers that have feasted on this story like hyenas at a kill have made money selling advertising space. To my mind they and the advertisers themselves are just as bad as anyone who makes this type of pornography.

Father pleads guilty to rape charges

A man who raped his daughter and posted videos of the abuse online before fleeing the country and guilty W [REDACTED] 46, will spend decades in federal prison. Onetime resident [REDACTED]

[REDACTED] 46 — described by law-enforcement officers as “one of the most heinous” guilty to production of child pornography and interstate transportation of a minor for the purpose of unlawful sexual activity.

His agreement with [REDACTED] prosecutors calls for a sentence of 50 years in prison, plus three years of probation, when [REDACTED] is sentenced March 25.

“A 50-year sentence is going to be a life sentence,” said Assistant U.S. Attorney Stephanie Lister, who prosecuted the case. [REDACTED] would serve some 42 years before he could be considered for parole.

He also pleaded guilty to three [REDACTED] charges of child rape during an appearance in [REDACTED] County Superior Court, in exchange for a expected sentence of 20 years, to run concurrently with [REDACTED] federal time. He will be held in a federal prison.

[REDACTED] capture involved law-enforcement officers in China, Hong Kong, Canada and a host of local agencies, officials said.

[REDACTED] was loathsome even by the standards of pedophiles, said Leigh Winchell, an Immigration and Customs Enforcement agent in [REDACTED].

“[REDACTED] distinguishes himself as one of the most heinous and despicable pedophiles ICE has ever seen,” Winchell said.

tremendous amount of influence among young people and on the internet, the preferred media of young people.

Whenever an existing culture is challenged by a new one, the culture representing the status quo is always at a disadvantage, because they offer nothing but what everybody already has, while the challengers offer something new and interesting. The defenders can only discourage people by promoting fear, uncertainty and doubt (FUD), while the challengers encourage people by pointing out the problems with the old culture and offering something which may appear better, at least to many people.

If indeed this is what is happening, who will win in the end? What will be the result? Time will tell!

THE STORY SAYS THAT THE COULD GET MARRY CAUSE AT 12 she was already a woman cause at that age the period began so she was fisically ready to have children, not trying to justied sexual perversions but why people back then wasnt being call pervert or thrown to jails why if it was normal back then now its not ???

After her relationship with father, she was left to false moral society teaching her that sex is wrong and raising her inner guilty. She told all story without a reason.

My conclusion is that when realise what she have done, why she done that and what's left after all that, she will kill herself.

Society will tell that is ok because she couldn't live with all that rape memory, but actually, she will do it because stupid society forced her to change her rememberings about relation with her father.

You're right. I went off and did more digging, intent on proving I was right, but I was wrong. What I wrote was accurate about [REDACTED] but she's not the girl in the Vicky videos. I believed sources I shouldn't have.

Still, I think my basic points hold. A lot of kids will become whatever their parents want them to be, especially if they have reason to feel insecure—and everything that anyone says about [REDACTED] suggests the kind of power-tripping narcissist who would make a kid feel insecure and then manipulate her into being what he wanted.

If they'd had a good parent/child bond she wouldn't be so pleased to send him to prison for 50 years.

And if he cared about her at all, if his physical relationship with her had anything to do with love, he wouldn't have posted videos of her on the internet. That ain't love.

She may not have been suffering in the moment the videos were made, but she was being manipulated by her father to do things entirely for his own gratification without the slightest concern for her or what she'd experience for the rest of her life. And he knew very well the kind of shame this could bring her.

This is why we avoid CP. Even the ones where it is *obvious* there was no coercion going on, just some kids having fun with each other and filming their sex play. Because no matter the truth of things we still internalize society's rules and the conflict will always drag us down.

In any case, truth is a fluid thing in CP. Look at the Vicky videos as a case in point. A [redacted] whose seen them can see she is having a good time and smiling happily for the camera—yet [redacted] herself has made it quite clear she is not happy with those videos and does not look back with [redacted] that time in her life. Despite the evidence of the camera, I find it hard to argue against the perspective of the one who was actually there...

So best bet is to stay the hell away and try to make do with some erotic text on asstr.org or with some lolikon manga (assuming such is legal in your area).

Bullshit! many other CP kids that were in *consensual* movies recall them with fondness, especially the Danish [redacted] from Color Climax. However even if they now changed their minds by internalizing society's crap as [redacted] did, the only one at fault is society.

By your reasoning it was immoral of my dad to raise me as an atheist surrounded by christians: I felt guilty, evil, sinful, alien, alone and I was truly ridiculed and ostracized. I even *became* christian and turned against my dad for years until close to his untimely death... I had begun to realize who was at fault. I was able to be there, finally, for my dad in his last days, and even with all the suffering the atheism caused me, I am very thankful to my dad for not beeing a sheep and teaching me not to be one myself.

Back to the topic at hand though, as I said in my previous post I have a hard time arguing with someone whose been *the* [REDACTED] if there is video evidence indicating otherwise. ubtedly some seriously wrong CP videos going around, with physical intimidation and so on. "Vicky", may now feel betrayed by the fact she participated in an incestuous sexual which she subsequently found out is not the done thing according to most people. But it's really pointless for her to pretend she did not enjoy the sex then. Those orgasms weren't faked. By lying about this she merely encourages some people to question her whole story.

Justice for "Vicky"

My name is ██████████. When I was ten years old my father, ██████████, started what would become a pattern of sexual abuse towards me on a trip to ██████████ to visit my grandmother for Mother's Day. The pattern of sexual abuse went on for a little over a year. It ended when I was eleven years old and I stood up to my father and told him "no more." My father photographed and videotaped the abuse. Sometimes I was aware of this, but most of the time I wasn't. Over the years these images have been spread over the internet to become one of the most downloaded series of child pornography in the world. This fact absolutely breaks my heart and I'll probably spend the rest of my life fighting the terrible problem of child pornography.

The things my father had done to me were kept a secret until I was sixteen years old; when I finally worked up the courage to tell my mother. My father had told me so many times that if I ever told, he would go to jail and people would think I was a terrible person. I am so glad I told. My mom and stepdad went to the authorities immediately and my father was informed of the things he'd been accused of. A few months later we discovered remnants of some deleted videos with sexual titles on my computer that my father had built using his old hard drive. We took the computer to the police and they uncovered thousands of child porn images including ones depicting my father abusing me. Now, we had some solid evidence against him. Upon learning this, my father fled and for about a year we had no idea where he was.

During that year, my parents and I appeared on the show ██████████ in an effort to track down my father. When the show aired, members of ICE who had been trying to identify a girl in a child porn series recognized me as the girl. It was then that I learned my father had shared this porn series he created and I was completely crushed when I learned how much it had been circulated.

In the spring of 2007, my father was captured in Hong Kong and soon after extradited back to the US. (Read more about his capture at ██████████ com). That May, my parents and I were invited to Washington D.C. to do another segment for ██████████ to celebrate his capture. We were invited to the ██████████ and a ██████████ and were recognized at each. We also had the opportunity to meet all the wonderful people who had worked so hard on our case from agencies like NCMEC, ICE, and the U.S. Marshal Service.

On ██████████, 2008, my father agreed to a plea agreement and pleaded guilty to two counts of producing child pornography and one count of interstate transportation of a minor for the purpose of engaging in unlawful sexual activity in the federal court. In state court he also pleaded guilty to three counts of rape of child in the first degree. In doing this he agreed that he should be sentenced to 50 years in a federal prison which would be followed by a three year term of court supervision. The federal sentencing is scheduled for ██████████.

So many times people are afraid to speak of sexual abuse and families are unwilling to face the reality of what has happened. When this occurs, the victims never receive their justice and healing. I built this website to help other people who have been victims of sexual abuse so they can learn to be survivors. My parents have been such a great support to me through all of this. Many people do not have good support systems in their life and I hope this website will be able to help them gain that.

Years ago I saw the "Vicky" videos while doing long term research on child porn from the "inside". There is no doubt in my mind that my perspective was the same as that of child lover. That is, from a viewer point of view.

Regardless of what ██████████ has stated about her alleged abuse, I do not think she was abused. It's clear that she was not. Not only from the perspective of the videos her dad made. But also from her interviews. The word "abuse" has been tossed around loosely in her life by those who resent the porn videos. Rather than to see an honest perspective from her father, he was quickly condemned for breaking the law and reduced to nothing. ██████████ was quickly brainwashed by her mother and step father, as well as many others. I do not advocate child porn. But there is a whole other world of parent/child relationships that is very misunderstood. It is something that has been here since the Beginning. And it will not go away because it is obviously a reality that will fight to see the light of day. There are many many families who strongly believe in incest. My family is not one of them. But I prefer to understand something than to simply condemn it because of my lack of understanding. That is ignorant.

Just like people condemned the telephone when it was first invented. Ignorant. People have shown for the longest time that they easily fall into a smug path where anything different becomes a crime. In this case. The videos with "Vicky" hardly show abuse. They look more like sexual training videos done with a lot of care. ██████████ actually seemed very fine and there were loving exchanges between her and her father. This is easily understood when you compare it to videos like the horrifying "Tara" videos where some fat, sadistic fool really does abuse a young girl. Nothing like that occurred in the "Vicky" videos.

Like it or not. There are things in this world that are demanding attention. Homosexuality is a prime example for modern times. I do not condone someone training someone else's child secretly for sex. But where incest is concerned, I think it is a reality that comes with and without abuse, the same as anything else in this world. But just because there are instances of abuse, that doesn't make incest a bad thing. The TV show that ██████████ was on is just another typical program looking for ratings at the expense of someone else's life. Someone gets built up. Someone gets torn down. That's Hollywood for you.

I absolutely LOVE her videos. But she grew up into a very fat and ugly looking girl. Seriously. She was sooo much hotter when she was little. Now she runs around to federal courts demanding money from people who look at (and enjoy!) her videos (like they owe her something). Ten plus years later she is still playing the victim and faggot Assistant U.S. Attorneys scour the interwebs to read posts like this in order to justify their outrageous claims that she is still being 'victimized.' How can I victimize someone I never knew, from thousands of miles and many years apart??

There is an interview where she frankly says that loves the father and regrets about the happened. In the same place she says, that does not consider, that it was violence. Nevertheless, certainly, in vain it has placed all it in the Internet and in general removed on the chamber. Happened should remain between them, they should understand it, in a family, times no violence. All this sensation and 50 years of prison basically the political decision, instead of adequate happens. A soap bubble, no more. In this case no any violence, she about it speaks in interview. It have simply compelled to accept the public point of view under the pressure of mother, court, the law, public opinion. That it as girls - it as was the beautiful child, and now very beautiful and attractive woman. An another matter that she lives in the state, where the person for the law, instead of the law for the person, and people are compelled to accept not the point of view, and public, imposed. 50 years of imprisonment for the person in this case - are too much, as no violence. I hope, that somehow they will manage to pull out it from prison if it is possible. I hope, that at this lovely lady all will be good and how she will want the heart. Sorry, my english bad.

Yourtimewillcometruthseeker

Truthseeker, you are a pathetic liar and a sorry excuse for a human being.

Your "inside" research was nothing more than indulging in the sick and unnatural practice that is child pornography. Your attempts to normalise incest would be laughable if the subject matter wasn't so sickening. ANY time a minor is coerced into sexual acts (with or without violence), it is abuse - ESPECIALLY from a parent, relative or someone they trust. It's an abhorrent abuse of trust. Her father shattered her innocence and exploited her naivety and trust with his position of power.

I hope that you, along with the likes of Guy and Todd run afoul of a great hulking man with a predilection for perverted, sorry excuses for humanity. It is the least you deserve.

And to those who prefer the body of a 10yr old to the beautiful woman that [REDACTED] is today, you can lump yourselves in the same category as Guy, Todd and Truthseeker - pond slime.

I will first admit that I am attracted to young girls. I also in the past have viewed CP and enjoyed it. For me, there is no choice for the attraction. But there is always a choice for action. I have not nor would ever harm a child and I have not sought after CP for many years. I remember the "vicky" videos and happened across the [REDACTED]/sentencing etc. Saw the pic of [REDACTED] as an adult and it clicked. I always knew every time I "used" CP that it was wrong, and afterwards I was disgusted with myself. I always wondered where these children were, what their lives were like, if they were kidnapped, or murdered, etc. I'm glad to see she got her justice and is doing fine now. Advice for anyone that has the same "problem" as me. Don't waste money on therapy or shrinks. Nothing will ever help you. The attraction will never go away. All you can do is control your actions.

I take the chance to write this as I read all replies, and understanding that pinkISH wants to save all this as mirrors of the world we live in.

I too watched some vicky videos in sinful action. I am deeply ashamed I ever got to this point but still want to exchange thoughts on the issue. I have never been attracted to children sexually, neither have I ever had sex with one. I will probably never try anything with a child, unless I was drunk as hell while the child seduced me. The probability is close to zero this will ever happen to me.

I feel kind of a victim to pornography in general as many others in this time. I began early and as time passes by you get used to it and want new things, all the time more and more extreme to awaken the numb lust. By the time you get to child pornography you wont get anywhere worse, except for different things within the genre. Degrees of hell. I am pretty sure there are lots of people in the same situation as me.

Now in this time virtually everyone in the world has more or less access to internet, and thus also access to pornography. I have been worried for a long time that children also have free access to the most perverted pornography. A new trend is getting more common within CP, young children posing on webcams doing things they could only have learnt through pornography imo. Shoving big things up their asses and then sucking on it as one example. I am disgusted of how things are turning, while all the time also having to see further sexualization of children in the mainstream culture, such as fashion, art, movies and books. Damn, too often I hate this world from all of my heart, but then I stay somewhat sane by never giving up the hope we will be able to make this a much better place for everyone to live in.

Prohibit all pornography on internet (and TV) and let it be a thing of the past, dark basements where most people wouldnt dare to venture. Do our utmost of not letting general sexualization of children be published or broadcast in the mainstream. Two important things to do in order to counteract these bad things happening. Stay strong!

Big C

I as many here fell victim of "CP" at a young age. I was and always have been anxious around girls and as a result of my frustration i indulged deep into porn. AND I MEAN DEEP!! lol

But too all the people who say anyone who looks at child porn should suffer or die or what not, you are all ignorant media trained scum. I hate judgemental people like as if they dont have thier own flaws. Getting drawn into the CP scene is often a result of the poor job our government does in protecting our children from graphic material. I know that was my case. WHEN i first started i was practically the same age as the children so i didnt see too much wrong with it, until i got older and realized i became conditioned to this bullshit and like others it sickens me that i have this secret because i am known as a really good guy and very intelligent and law abiding. I am a business professional and have worked for the federal government at one point ironically. People would be shocked, family as well but there u have it

SO u see we are not all "Demons" who view this material for gratification. It is usually an urge we fight and often lose control of yet we know that in the real world we would never ever ever consider harming a child in any way. because as others have said any type of sexualization of a child will absolutely destroy a child psychologically for life often and i wish no child to go thru that. So thats my take on this crap. As for [REDACTED] her material was among my fav during my hayday yet i feel for her now that i see her in the real world

So you see it
